About Me

Website, service, and mobile application designer.
I help businesses grow: improve conversion rates, simplify interaction scenarios, and develop digital products.
Ready for projects of various scales and formats.

Work Experience

6 years

Versions

November 2025 — Present

11 months

Country	UAE
Website	versions.global

Lead Product Designer

June 2026 — present (3 month)

Providing art direction and overseeing the quality of design solutions across projects. Contributing to hiring, onboarding, and mentoring designers. Leading client communication, including presenting concepts, gathering feedback, and aligning on requirements and priorities.

Senior Product Designer

November 2025 — June 2026 (8 month)

Designing mobile and web applications for clients across the UAE, US, South Asia, and Russia. Taking products from research and user flow definition through final UI and developer handoff. Creating and evolving design systems, prototypes, and product concepts. Collaborating closely with product managers and developers to define requirements and ensure high-quality implementation.

TREI

February 2025 — October 2025

9 months

Country	Russia
City	Penza
Website	trei.biz

Specialist in design and development of user interfaces

Redesign of the company's key digital products. Optimization of user flows to increase conversion. Development of a design system and brand identity.

Real Deal

February 2024 — October 2024

9 months

Country	UAE
Website	real-deal.io

Senior Product Designer

Designing a digital product for the UAE market: a platform for automating transactions for buying, selling, and renting commercial real estate. Market research, competitive analysis, and studying the target audience. Developing user scenarios and designing new features. Creating and maintaining a brand book, corporate identity, and design system. Implementing and optimizing design team processes.

Ozon

April 2023 — June 2023

3 months

Country	Russia
City	Saint Petersburg
Website	ozon.ru

Middle UX/UI Designer

Developing design solutions for web and mobile products of the company. Developing and maintaining the design system. Preparing documentation for layouts and author supervision of implementation on the development side. Usability audit: analyzing user scenarios, identifying problem areas, and implementing improvements.

Gazelkin

September 2021 — December 2022

1 year 4 months

Country	Russia
City	Saint Petersburg
Website	gazelkin.ru

Middle Web Designer

Developing the company's corporate identity: logo, typography, color palette. Complete redesign of the main website. Designing and launching landing pages for key services.

Marketinc

and certificates

OpenAI Academy

June 2026

Completed the OpenAI Academy's connected learning path on practical AI work: AI Foundations, Applied AI Foundations, and Agents and Workflows. These courses combine product recommendations, a research approach, security expertise, and OpenAI practices, helping you understand AI principles, apply it to real-world problems, and transform successful approaches into repeatable processes.

Key Skills

Languages

Russian	Native
English	C1 — Advanced

Personal Qualities

A reliable and responsible person, true to my word.

Professional Skills

I am meticulous and efficient in my work, which is especially valuable when solving complex problems. My education as an analyst and developer provides me with a solid foundation for justifying and implementing visual solutions.

Software Proficiency

Figma. Adobe software suite. Any AI and No-Code tools: ChatGPT, Claude Code, Midjourney, ComfyUI, Framer.
